- Best practice for organization Apple IDs (iCloud & App Store)

- *http://support.apple.com/kb/HE37

- http://support.apple.com/kb/HT5622

MACTECH

Security-Two Step Authentication

- Step #1: Verifies the device you pick (sends SMS)

- Doesn't show passcode if device is locked

- asks for mobile number (you can go back and add or verify more trusted devices, or remove them)

- any SMS messages are free: This SMS message is free Verifies the number you put in

- Step #2: FA–KECO–DEIS–HERE (Recovery Key used if device unavailable)

- (Interesting note, can't copy and paste) –Recommended to print or write down, but don't save in computer.

Security-Two Step Authentication cont'd

- Step 3 –you will have to retype (can't copy paste) into field to move forward

- Step 4 Accept Terms

- Test: Login, Send by text, approved device, or recovery key

- http://support.apple.com/kb/HT5570

- *Multiple failed logins will lead to an automatic account lock
